RE: Administrative Order V-W-84-007
Groundwater Sampling Plan

Dear Mr. Longo:

Ethyl Petroleum Additives, Inc. has received the U.S. Environmental Protection Agency's approval, dated February 4, 1986, of our groundwater sampling plan submitted on January 24, 1986. As per telephone conversations between yourself and our Mr. M. J. Bonaventure, due to extensive construction activity being conducted in the area of the well locations, Ethyl Petroleum Additives, Inc. request that construction of these wells be scheduled to begin in August, 1986. At this same time we would also obtain the sub-surface soil samples at Sample Point I for analysis as submitted in our memo dated October 23, 1985, and approved by the Agency on November 22, 1985.

If you have any questions on this matter please call me at (618) 274-4000.

Sincerely,

A handwritten signature in dark ink, appearing to read "S. McWilliams", written over a horizontal line.
